Frank Fiorante

fiorantefrank@gmail.com | (708) 248-3286 | Chicago, IL

SKILLS

Java/Kotlin, Spring, Pivotal Cloud Foundry, MuleSoft, React, HTML/CSS/JS, TypeScript, Bash, Concourse/Jenkins, Test-Driven Development, Model-View Controller, Pivotal Tracker/Jira

EXPERIENCE

HCSC: Blue Cross Blue Shield of Illinois

Associate Developer   Summer 2019 – Present

- Developed Java REST APIs using spring framework
- Deployed APIs via Concourse CI/CD to cloud hosted platforms (PCF)
- Established MuleSoft Gateway Proxies to control internal/external traffic within the network
- Created fully scalable MuleSoft Process REST APIs capable of complex business logic
- Followed HCSC Agile Methodology, using Extreme Programing (XP) Iterative Development

Associate Developer Intern   Summer 2018 – Fall 2019

- Utilized a Model-View-Controller architectural pattern to create an online web application
- Followed an agile methodology to complete user stories through weekly sprints
- Created software allowing clients, brokers, and account executives to schedule health events
- Worked in an extreme programming space, incorporating paired programming techniques
- Presented the final product to high-level executives including the CIO

PROJECTS

EISIP_Mule_Mulesoft4Proxy / EISIP_Mule_Mulesoft4Api

- Composed a new Inner-Source MuleSoft Archetype, allowing proxies / APIs to be generated
- Automated CI/CD deployments by generating Concourse pipelines through Bash scripts
- Produced READMEs and Docs which setup Digital Portfolio standards for MuleSoft work

Api Incidents

- Organized an Api to automate Statuspage incidents from Dynatrace/New Relic incident alerts
- Designed a MuleSoft Proxy allowing traffic bypass with Dynatrace, New Relic, and Statuspage

EDUCATION

DePaul University – Chicago, IL

Bachelor of Science in Information Technology, June 2019

Cumulative GPA: **3.6**
